ULTRA^{POUR} SPOUT by Aptar

CONVENIENT FOR DAILY USAGE

- **Directionality function** with raised spout
- **Controlled and constant flow** with the best-in-class valve technology from Aptar
- Conveniently pouring with the active hinge allows **lid to stay open** during usage
- Inverted package friendly
- **Wide application:** large valve size facilitates dispensing with chunks and high viscosities

CLEAN EVERY TIME

- Cut-off valve feature avoids sticky and messy experience
- **Minimizes stringing & drip**
- No spurting, leaking or spilling

SPECIFICATIONS:

- 31mm neck finish
- 33mm outer diameter
- Large valve size (.634")
- Flat seal
- Liner (Tri-Tab or Lift'n'Peel)

LINE EFFICIENCY

- **Capping efficiencies** thanks to the ribbed surface finish
- **Robust closure** with high-resistant hinge

SUSTAINABILITY

- **Lightweight** closure (only 4.6g)
- Ideal for small pack size
- SimpliSqueeze valve and compatible with SimpliCycle fully recyclable valve
