

Sustainability with a Twist

Twist to Refill

by Aptar

TWIST INTO CONVENIENCE

- Simple and easy-to-use connector.
- Makes refilling easy, eliminating overflow; no mess, no leaks and zero product waste.
- Built in auto-stop feature that activates once the destination container is full.

TWIST INTO SUSTAINABILITY

- Enables multiple refills and reuse of the primary pack.
- Fully recyclable, 2-piece simple solution.
- PCR capable.

SPECIFICATIONS:

- Neck Size: 38 mm to 28 mm (1881)
- Compatible with both rigid and flexible material depending on neck size.
- Compatible with various formulas and viscosities.

Insert & Twist

Insert the connector into the destination bottle and twist to the "open" position.

Refill

Squeeze the source bottle or let the product flow by gravity.

Stop Flow

Twist to close or let the auto-stop feature activate. Unscrew from the destination bottle.

Our technical team is at your service to audit and optimize your filling lines.
