

# BRAVO

by Aptar

**Smart Design**  
**Meets Seamless**  
**Performance**

**Bravo is a bi-injected closure system engineered for upright and inverted packaging, combining technical precision with consumer-friendly features and brand-forward aesthetics.**

#### CONSUMER CONVENIENCE

- Easy-open design with a finger-friendly, rotating recess
- Elevated rim ensures stable upside-down storage
- Active hinge enables smooth dispensing experience

#### INCREASED EFFICIENCIES

- Straight-line bottle-to-closure fitment supports faster, more reliable filling line operations
- Shortened plug seal height simplifies capping without compromising leak protection

#### ELEVATED SHELF PRESENCE

- Distinct two-tone color scheme helps shoppers quickly identify product variants
- Smooth, edge-free silhouette conveys premium quality and safety
- Minimalist, yet sturdy design with glossy lid and frost body

#### SPECIFICATIONS

- Neck Finish: 20 mm
- Sealing System: Plug seal
- Orifice Sizes: 3 mm, 5 mm
- Finish: Glossy or glossy lid & frost body

**Our technical team is at your service to audit and optimize your filling lines.**
